# CONTENTS

## JANUARY, NO. 1

*Effect of calcium-deficient roughages upon milk yield and bone strength in cattle.* R. B. Becker, W. M. Neal and A. L. Shealy ..... 1
*The detection of the Escherichia-Aerobacter group in butter.* M. Grimes ..... 11
*Studies on the iodine content of milk. I. Effect of desiccation and storage* Z. M. Hanford, G. C. Supplee and Roe E. Remington ..... 15
*Studies on the iodine content of milk. II. Variation in the mixed milk of herds.* Roe E. Remington and G. C. Supplee ..... 19
*Substances adsorbed on the fat globules in cream and their relation to churning. III. Analysis of the adsorbed protein.* Hilda F. Wiese and L. S. Palmer ..... 29
*A study of the relationships between hydrogen ion concentration, titratable acidity, and quality in cheddar cheese.* L. W. Brown and Walter V. Price ..... 33
*A study of factors related to the hardening of ice cream.* P. H. Tracy and C. Y. McCown ..... 47
*Association Announcements* ..... 61

## FEBRUARY, NO. 2

*The Growth of Penicillium roqueforti on Synthetic Media.* N. S. Golding ..... 61
*A Comparison of the Leucocyte Count, the Brom Thymol Blue Reaction and the Catalase Content of Freshly Drawn Milk.* C. C. Prouty ..... 75
*The Effect of Daily Massive Doses of Viosterol Upon Calcium and Phosphorus Metabolism and Blood Calcium and Inorganic Phosphorus in Calves.* C. W. Duncan and C. F. Huffman ..... 83
*Pedigree Analysis as a Basis of Selecting Bull Calves.* Lynn Copeland ..... 93
*The Manufacture of Low-lactose Skim Milk for Use in Ice Cream.* B. H. Webb and O. E. Williams ..... 103
*Further Studies of the Effect of Pasteurization on the Bacterial Flora of Low Count Milk.* C. C. Prouty ..... 115
*Association Announcements* ..... 121

Erratum.—Through an error the March number started with page 223 instead of 123.

## MARCH, NO. 3

*The Effect of Specific Dietary Fats on the Blood Lipids of Lactating Goats.* H. H. Williams and L. A. Maynard ..... 223
*A Study of the Phosphorus Requirement of Dairy Cattle. II. Phosphorus, Calcium and Nitrogen Metabolism of Dairy Cattle When Alfalfa Furnishes the Principal Source of Protein.* L. W. Lamb, O. B. Winter, C. W. Duncan, C. S. Robinson and C. F. Huffman ..... 233
*By-Laws of the American Dairy Science Association* ..... 243
*Water Requirements of Dairy Calves.* F. W. Atkeson, T. R. Warren, and G. G. Anderson ..... 249
*Influence of Mastitis on the Curd Tension of Milk.* H. C. Hansen, D. R. Theophilus, F. W. Atkeson, and E. M. Gildow ..... 257

*The Influence of Type of Ration and Plane of Production on Water Consumption of Dairy Cows.* F. W. ATKESON AND T. R. WARREN ..... 265
*Announcements* ..... 278

APRIL, NO. 4

*Laboratory Methods for the Detection of Milk from Cows Infected with Mastitis.* W. V. HALVERSEN, V. A. CHERRINGTON and H. C. HANSEN ..... 281
*Rate of Passage of Inert Materials Through the Digestive Tract of the Bovine.* L. A. MOORE and O. B. WINTER ..... 297
*Studies on Whipping Cream.* HUGH L. TEMPLETON and H. H. SOMMER ..... 307
*Factors Influencing the Initial Induction Period in the Oxidation of Milk Fat.* J. L. HENDERSON and C. L. ROADHOUSE ..... 321
*The Value of Hand Stripping After Machine Milking.* JOHN L. WILSON and C. Y. CANNON ..... 331
*Association Announcements* ..... 339

MAY, NO. 5

*The Utilization of Atlas and Kansas Orange Sorgo Seed by Dairy Cows.* J. B. FITCH and F. B. WOLBERG ..... 343
*Studies of the Technic to Evaluate the Efficiency of Several Chlorine Sterilizers for Dairy Use.* E. D. DEVEREUX and W. L. MALLMANN ..... 351
*Pimientos in Processed Cheese.* HUGH L. TEMPLETON and H. H. SOMMER ..... 361
*The Influence of Citric Acid Upon Titratable Acidity and Hydrogen-ion Concentration of Frozen Desserts.* A. C. DAHLBERG and J. C. HENING ..... 365
*Cheese Spreads. II.* HUGH L. TEMPLETON and H. H. SOMMER ..... 373
*The Fat Percentage of Milk as Affected by Feeding Fats to Dairy Cows.* NAT N. ALLEN ..... 379
*Butter as a Substrate for Mold Growth.* H. MACY and G. H. STEELE ..... 397
*The Feeding Value of Artificially Dried Pasture Herbage for Milk Production.* J. C. KNOTT and R. E. HODGSON ..... 409
*Association Announcements* ..... 417

JUNE, NO. 6

*Standards and methods of analysis of dry skim milk.* E. C. THOMPSON, A. H. JOHNSON and M. KLOSER ..... 419
*A plan and preliminary results of a permanent pasture grazing test.* E. C. ELTING and J. P. LAMASTER ..... 425
*Irradiated milk: The transmission and antirachitic activation of milk films by ultraviolet radiations.* G. C. SUPPLEE and M. J. DORCAS ..... 433
*The relative value of irradiated yeast and irradiated ergosterol in the production of vitamin D milk.* WALTER C. RUSSELL, D. E. WILCOX, J. WADDELL and LOGAN T. WILSON ..... 445
*Vitamin studies XX. The effect of various methods of pasteurization on the vitamin B and the vitamin G content of cow's milk.* R. ADAMS DUTCHER, N. B. GUERRANT, and J. G. MCKELVEY ..... 455
*Program of annual meeting of the American Dairy Science Association* ..... 467

JULY, NO. 7

*The effect of heat and chemical sterilization on the rubber parts of milking machines.* J. L. HENDERSON, C. L. ROADHOUSE and A. FOLGER ..... 475

*Irradiated milk: The influence of fat content and time of exposure on the antirachitic potency.* G. C. SUPPLEE, G. E. FLANIGAN and R. C. BENDER ..... 483
*The effect of pasteurization upon the vitamin C content of milk.* C. G. KING and W. A. WAUGH ..... 489
*Rate of growth and acid production of Streptococcus lactis.* J. M. SHERMAN and H. M. HODGE ..... 497
*Some physico-chemical properties of lactose. I. The spontaneous crystallization of supersaturated solutions of lactose.* B. L. HERRINGTON ..... 501
*Influence of homogenization on the curd tension of milk.* D. R. THEOPHILUS, H. C. HANSEN and M. B. SPENCER ..... 519

## AUGUST, NO. 8

*The Differentiation of Streptococcus Lactis from Streptococcus Fecalis.* JAMES M. SHERMAN and PAULINE STARK ..... 525
*Irradiated Milk: Characteristics of the Flowing Film Required for Optimum Efficiency of Antirachitic Activation.* G. C. SUPPLEE and M. J. DORCAS ..... 527
*Some Physico-Chemical Properties of Lactose. II. Factors Influencing the Crystalline Habit of Lactose.* B. L. HERRINGTON ..... 533
*The Relation Between the Hardness of Butter and Butterfat and the Iodine Number of the Butterfat.* S. T. COULTER and O. J. HILL ..... 543
*The Relation of the Composition of Butterfat to the Churnability of Cream.* S. T. COULTER and W. B. COMBS ..... 551
*The Occurrence of Polythelia in Dairy Cattle.* WARREN GIFFORD ..... 559
*The Butterfat Records of Cows Possessing Supernumeraries Compared with Cows Having the Normal Number of Teats.* WARREN GIFFORD ..... 571
*Proceedings of the 29th Annual Meeting of the American Dairy Science Association.* R. R. GRAVES ..... 575

## SEPTEMBER, NO. 9

*The application of X-rays to research in dairy technology.* S. L. TUCKEY, H. A. RUEHE and G. L. CLARK ..... 587
*Some physico-chemical properties of lactose. III. The aqueous vapor tension of Alpha hydrate-anhydride systems. The preparation of Alpha anhydride.* B. L. HERRINGTON ..... 595
*Irradiated milk: The reflecting properties and antirachitic activation as affected by the impingment angle of the incident radiation.* G. C. SUPPLEE and M. J. DORCAS ..... 607
*Numbers of microorganisms falling from the air in dairy plants.* H. C. OLSON and B. W. HAMMER ..... 613
*Freshening ages of purebred cows in Iowa cow testing associations.* MOGENS PLUM and JAY L. LUSH ..... 625
*The apparent viscosity of ice cream. I. The sagging beam method of measurement. II. Factors to be controlled. III. The effects of milkfat, gelatin and homogenization temperature.* ALAN LEIGHTON, ABRAHAM LEVITON and OWEN E. WILLIAMS ..... 693

## OCTOBER, NO. 10

*The color imparted to coffee by cream treated in various ways.* RANDALL WHITAKER 651
*Some physico-chemical properties of lactose. IV. The influence of salts and acids upon the mutarotation velocity of lactose.* B. L. HERRINGTON ..... 659

*Lespedeza straw for dairy cows.* W. B. NEVENS ..... 671
*Fat rising in cream.* H. C. TRELOGAN and W. H. COMBS ..... 675
*The relative efficiencies of irradiated ergosterol and irradiated yeast for the production of vitamin-D milk.* W. E. KRAUSS, R. M. BETHKE, and WILLARD WILDER 685
*The effect of feeding raw rock phosphate on the fluorine content of the organs and tissues of dairy cows.* CHANG Y. CHANG, PAUL H. PHILLIPS, and E. B. HART ..... 695

## NOVEMBER, NO. 11

*Some physico-chemical properties of lactose. V. The influence of other substances upon the equilibrium rotation of lactose.* B. L. HERRINGTON ..... 701
*Birth-weight, gestation period, and sex ratio of alaskan hybrid holstein-galloway calves.* W. T. WHITE ..... 709
*Methods for testing frozen cream.* H. C. TRELOGAN and W. B. COMBS ..... 717
*Certain foam producing substances of milk.* S. ANSBACHER, G. E. FLANIGAN and G. C. SUPPLEE ..... 723
*Pasture fertilization results.* R. H. LUSH and J. L. FLETCHER ..... 733
*Progress report on comparison of lactation and yearly records.* G. M. HARRIS, JAY L. LUSH and C. N. SHULTZ ..... 737
*Members of American Dairy Science Association, July 15, 1934* ..... 743
*American Dairy Science Association announcements* ..... 757

## DECEMBER, NO. 12

*Detection of lactic acid in milk and cream.* H. C. TROY and PAUL F. SHARP ..... 759
*The nutritional value of milks—raw vs. pasteurized and summer vs. winter.* C. A. ELVEHJEM, E. B. HART, H. C. JACKSON and K. G. WECKEL ..... 763
*The iodine content of milk as affected by feeding iodized milk.* ZAIDA M. HANFORD, G. C. SUPPLEE and L. T. WILSON ..... 771
*Controlling physical properties of high solid mixes.* M. J. MACK ..... 781
*A study of some factors influencing the Hill curd test.* W. J. CAULFIELD and W. H. RIDDELL ..... 791
*E. coli in mastitis with accompanying changes in milk composition.* F. R. SMITH and J. L. HENDERSON ..... 799
*Some physico-chemical properties of lactose. VI. The solubility of lactose in salt solutions; the isolation of a compound of lactose and calcium chloride.* B. L. HERRINGTON ..... 805
*Milk and butterfat yields of Jersey cows as affected by frequency of milking.* LYNN COPELAND ..... 815
*American Dairy Science Association announcements* ..... 823
*Index to Volume XVII* ..... 825

# JOURNAL OF DAIRY SCIENCE

OFFICIAL ORGAN OF
AMERICAN DAIRY SCIENCE ASSOCIATION

A. C. DAHLBERG, Editor
Geneva, N. Y.

*Associate Editors*

L. S. PALMER
*St. Paul, Minn.*

C. W. LARSON
Buffalo, N. Y.

H. A. RUEHE
Urbana, Ill.

E. G. HASTINGS
Madison, Wis.

E. B. MEIGS
Beltsville, Md.

PAUL F. SHARP
Ithaca, N. Y.

O. F. HUNZIKER
Chicago, Ill.

L. A. ROGERS
Washington, D. C.

C. E. GRAY
San Francisco, Cal.

*Committee on Journal Management*

O. F. HUNZIKER, Chairman
Chicago, Ill.

R. R. GRAVES
Washington, D. C.

A. A. BORLAND
State College, Pa.

---

*The Journal of Dairy Science* is issued monthly. Subscription is by the volume and one volume is issued per year.

*Manuscripts* should be typewritten and carefully revised before submission to A. C. Dahlberg, New York Agricultural Experiment Station, Geneva, New York. Twenty-five reprints will be furnished gratis to authors. Cost of additional reprints and reprint order blank will be submitted with proof.

*Subscriptions.* Price; $5.00 per volume in United States, Canada and countries within the postal union; $5.50 in countries outside the postal union. Prices are net, postpaid. New subscriptions and renewals are entered to begin with the first issue of the current volume unless otherwise stated. Renewals should be made promptly to avoid a break in the series.

*Subscriptions and Advertising* should be mailed direct to the Science Press Printing Company, Lime and Green Streets, Lancaster, Pennsylvania.

All subscriptions from the British Isles and British Empire (with the exception of Canada) should be ordered through our agents: Messrs. Bailliere, Tindall and Cox, 7 and 8 Henrietta Streets, Covent Garden, London, W.C.2, England.

*Correspondence* regarding business policies of the Journal should be addressed to the Editor. The use of material published in the Journal is encouraged and a liberal policy will be followed concerning reproduction of articles with proper notation as to source.
